

**CRAFTING ROOTS**  
catalyst of change

NGO | Catalysts of Change | Prodigy in Service

## “Our Vision

Provide essential inputs for every individual to feel important and intellectual.  
Provide opportunities to convert those inputs into an asset for a comfortable living.

## “We Are

**CRAFTING ROOTS** is a cluster of programs stimulated by **HOME of FAITH TRUST** to improve the quality of living among the Urban Backward and Rural Communities. It is the brain child of experts who have contributed to the field of Public Welfare and alumni of IIM, IIT and SAI.

We have been serving homeless children since 2007 with shelter, education and lessons for a dignified living. Since then we have carried our expertise in doing the little we can by contributions of various likeminded organizations and companies through our community service projects.
